Example 01

Say hello.....   [   ]

[Say Hello] [Clear]

This example uses an alert statement to open a pop up to say hello to the user. There is no check to see if there is text in the box.

```
<h3>Example 01</h3>
<form action="#">
<p>
Say hello.....
<input id="TBHello" type="text" />
</p>
<input id="BtnHello" type="button" value="Say Hello" onclick="alert('Hello ' +
    document.getElementById('TBHello').value);" />
<input id="BtnReset" type="reset" value="Clear" />
</form>
```
